OBJECTIVE

Software Developer with hands-on experience building and shipping mobile, web, and automation tools — seeking opportunities to contribute practical engineering skills in a collaborative product team.

TECHNICAL SKILLS

Software Development: Flutter/Dart, Python/Django, TypeScript/JavaScript, WordPress/Polylang.
Data & Services: Firebase, Cloudflare Workers, Hive, SQLite, REST APIs; Git, GitHub.
IT Support: Windows, hardware/software troubleshooting, printers/peripherals, LAN connectivity.

WORK EXPERIENCE

Binh Thuan Eye Hospital — *IT Helpdesk* — April 2026 – Present

- Provided day-to-day IT support for 30–50 hospital staff, resolving issues across Windows workstations, printers, and business applications.
- Maintained reliable connectivity and peripheral operations across clinical and administrative departments.

SOJO — *IT Support / IT Operations* — January 2026 – March 2026 — *Phan Thiet, Binh Thuan*

- Delivered IT support for 30–50 staff, covering workstations, printers, internal applications, and LAN connectivity.
- Coordinated with external vendors to resolve hardware and software issues, minimizing operational downtime.

The Sailing Bay — *IT Internship* — August 2025 – November 2025 — *Mui Ne, Phan Thiet*

- Supported hardware/software issues and LAN connectivity across hotel departments.
- Assisted with access point configuration, VoIP peripheral setup, and Property Management System (PMS) onboarding.

PROJECTS

FM Dictionary [Website] — *Flutter, Dart, Hive, Firebase, Cloudflare Workers* — March 2026 – Present

- Developed and shipped a production Flutter vocabulary app (iOS & Android) with 1,847 FM terms, local-first offline learning, and spaced-repetition flashcards.
- Implemented a Cloudflare Workers edge proxy for authenticated STT/TTS calls, keeping all API keys off the client device.

GitHub Vault Relay [GitHub] — *TypeScript, Obsidian Plugin API* — September 2026 – Present

- Built and published an open-source Obsidian Community Plugin (v1.2.1) providing GitHub-backed vault sync across Mobile and Desktop without requiring Git on the device.

Hotel Management [GitHub] — *Django, SQLite, HuggingFace + FAISS, Groq, LlamaCpp/Phi-4* — September 2025 – November 2025

- Developed an academic Django capstone covering SQLite booking, inventory, cancellation, and admin workflows with six focused tests.
- Built a RAG path using HuggingFace embeddings and FAISS, supporting both Groq cloud and optional local LlamaCpp/Phi-4 inference.

KOI Phan Thiet [Website] — *WordPress, Polylang* — February 2026 – May 2026

- Collaborated on a 5-language WordPress site, implementing Polylang multilingual menus and page-load optimizations.

EDUCATION

Phan Thiet University 2022 – 2026
B.S. in Information Technology GPA: 3.2 / 4.0
